Information Sheet for Development within the RM of Vanscoy No. 345 Development Permit

- 1. A Development Application shall be made where there is a proposed change in the land use. For example, if developing a yard site, proposing to construct a residence or garage or other accessory building, subdividing land for residential or commercial use or proposing to use a residence as a home-based business a **development permit** is required. There are many different scenarios that require a development permit. Please contact the municipal office if you are unsure.
- 2. Steps in making an application for development:
 - a. Contact the municipal office to obtain a Development Permit Application Form
 assuming that your development fits in the permitted or discretionary use category.
 If your proposed development fits in the permitted use, then approval is expected to
 take about 4 6 weeks.
 - b. If your proposed development is discretionary in nature, council will consider the approval at a meeting of Council. Depending on timing of council meetings and the legislated circulation requirements for discretionary use, the approval could take a minimum of 8 weeks.
 - c. Complete all sections of the Development Permit application form as accurately as possible and return to the administration office complete with a Site Plan on a separate sheet, listing, where applicable, the following:
 - dimensions of the site
 - setbacks to all property lines
 - location and size of all existing and proposed buildings and structures
 - -utility lines, easements, or topographic features
 - -proposed location of sewage systems and water supply, connections to registered rural water utility is required in approved subdivisions
 - -access points to provincial highways or municipal road
 - d. Development adjacent to and accessing a **provincial highway** requires a permit from Highways to ensure that the development is meeting their setback requirements. This does not apply to internal subdivision roads. The Highway Permit is to be submitted along with the development application so it is important to contact Highways prior to submitting the development application.
 - e. Sewage system a permit is required from the Saskatoon Health Regions Public Health for sewage works. Contact the Public Health department to ensure compliance with their regulations.

306-668-2060 <u>connect@rmvanscoy.ca</u> Box 187, Vanscoy, SK SOL 3JO

- 3. Complete the declaration of the applicant and sign and date the application for development.
- 4. Pay application fee at the time of submitting information:
 - a) A \$125.00 application fee is payable upon submission of application.
 - c) Payment can be made by credit card through OptionPay at www.rmvanscoy.ca, e-transfer to payments@rmvanscoy.ca, cash or cheque in the office.
- 5. The Municipality may require additional information prior to making a decision regarding approval. The Municipality may request various reports and/or documents to support the application such as a geotechnical or hydrology report.
- 6. Once your application is approved by the Development Office or Council a Notice of Decision will be issued. No development shall be started until a Notice of Decision has been issued.
- 7. Where a building is being constructed, a Building Permit Application should accompany the development application if possible. The building permit can be applied for at a later date, but the building dimensions, etc. must remain the same as initially stated on the site plan. If there is a revised site plan, a revised development application will be necessary along with the revised plan. Please refer to the Building Permit for relevant information.
- 8. Contact information:
