### Information Sheet for Building within the RM of Vanscoy No. 345 Building Permit

#### Notes:

A Code Analysis provides detailed information on provision of the NBC, NECB or NPC that apply to the specific project demonstrating design and construction is intended to meet minimum requirements.

Value of Construction is the total cost to the owner for the building construction in its completed form and includes the cost of all building work, materials of construction, building systems, labour and overhead and profit of the contractor and subcontractors.

Building area means the greatest horizontal area of a building above grade within the outside surface of exterior walls or within the outside surface of exterior walls and the centre line of firewalls.

Building height (in storeys) means the number of storeys contained between the roof and the floor of the first storey.

1. All buildings require a building permit except for an accessory building not greater than 100 sq ft. A complete building permit application form will be required along with 2 sets of building blueprints or plans. An engineered stamped blueprint or plan is required for all builds.
2. The site plan submitted with the Development application should be sufficient providing no change is made to the original site plan.
3. Please allow 4 – 6 weeks for processing time.
4. Building permit fee:  
Invoiced after review by the building inspector - Municode.  
The RM charges an administrative fee of 20% on top of Municode's fee for the processing, handling and issuance of all building permits as well as SAMA's fee of \$25 for their review.
5. **Construction garbage** - Please ensure construction garbage is contained within the construction site and removed within a timely basis.

Email: [planner@rmvanscoy.ca](mailto:planner@rmvanscoy.ca)

6. Steps in making an application for building:
  - i. Contact the municipal office to obtain a Building Permit Application Form.
  - ii. Complete all sections of the Building Permit application form as accurately as possible and return to the administration office.
  - iii. Where a building is being constructed, a Development Permit Application should accompany the building application if possible or be submitted previously. The building permit can be applied for after applying for the development permit, but the building dimensions, etc. must remain the same as initially stated on the site plan. If there is a revised site plan, a revised development application will be necessary along with the revised plan.
7. Complete the declaration of the applicant and sign and date the application for the building permit application.
8. The municipality may require additional information prior to making a decision regarding approval. The Municipality or Building Inspectors may request various reports and/or documents to support the application. Incomplete applications will delay approval.
9. Once your application is approved by the Building Inspectors the RM Office will contact the owners regarding final payment and pick up of the building permits. No building shall be started until a permit has been issued.
10. **For Your Information:** Please check with your insurance provider that the fire insurance coverage is a recommended minimum of \$50,000.
11. **Contact information:**

# Smoke & Carbon Monoxide Alarm Installation Requirements – New Rules Effective July 1, 2022

On January 1, 2022, the *Construction Codes Act* and *Building Code Regulations* came into effect in Saskatchewan replacing the *Uniform Building and Accessibility Standards Act and Regulations*.

The *Building Code Regulations* has the following requirements that will come into force on **July 1, 2022**:

1. Every building that contains a residential occupancy is required to have smoke alarms installed inside **each bedroom**, in the **bedroom corridor**, and **each storey without a bedroom**. These smoke alarms are permitted to be battery operated. **If** the building was constructed before June 6, 1988, then the batteries used for the smoke alarms must be 10-year batteries (see photo attached for example of 10-year battery alarm).
2. Every building that contains a residential occupancy is required to have a carbon monoxide alarm installed inside **each bedroom OR** within 5 m (16') of **each bedroom door**. These carbon monoxide alarms are permitted to be battery operated. **If** the building was constructed before October 1, 2009, then the batteries used for the carbon monoxide alarms must be 10-year batteries (see photo attached for example of 10-year battery alarm).

### What does this mean for owners?

If your residence is missing smoke and/or carbon monoxide alarms in the locations listed above, then as the owner it is your responsibility to install the missing alarms.

The municipality and building officials, *MuniCode Services Ltd.*, are not required to enter every property to ensure that these alarms are installed. However, when a building official does enter the building for
